

news digest

HOUSTON — "Unfortunately, this world is becoming a grey planet," said Challenger Commander Paul J. Weitz at a recent news conference, the first since Challenger's touch-down.

According to Weitz, the atmospheric pollution that surrounds the earth resembles the blue smoke of burning wood. The haze, according to Weitz, seemed to hang over the earth's land masses, including undeveloped countries.

"What's the message? We are fouling our own nest," Weitz said.

CHAMPAIGN—Three large American flags in Champaign may be flying in violation of the city's 1975 sign ordinance, according to City Attorney Fred Stavins.

Two of the flags, located at the Stewart Stations on West Springfield and North Neil, measure 30 feet by 20 feet and each flies from a 60-foot pole. The other flag is atop a 100-foot pole at Perkins' Cake and Steak on North Neil, and measures 30 by 25 feet.

By city law, business signs in those same areas are not to exceed a total of 50 square feet or a height of 20 feet.

Stavins said he is "taking a long, hard look" at the case, but will wait for the outcome of a separate case presently testing the law before making a decision.

ELK GROVE—The Cook County Department of Environmental Control recently issued a citation to Metallic Marketing Services as a result of the February death of an employee, Stefan Golab.

According to the Department, Golab died from inhaling poisonous cyanide gas while at work, yet factory officials said they will close the plant rather than install exhaust vents.

The factory was cited for failing to use a certified process to remove the silver from film, and for operating without a permit.

CHAMPAIGN — Karla Woods, the 23-year-old hypothermia victim pronounced dead at her home April 14, was released from Burnham Hospital Friday.

Woods, along with Burnham officials, held a press conference prior to her release.

"I've been told I'm a one-in-a-million case, but I wonder if that's really so," Woods said. "If there is any good to come of this I hope that people will be more aware of hypothermia and consider it as a possibility when they find people in a situation like I was found."

Woods had consumed an apparently lethal amount of drugs and alcohol. Her body reacted by going into a state similar to hibernation.

Woods did not wish to comment on circumstances that led to her overdose.

Tuition hike seen as necessary

by Diane Ackerson

Eighty-three percent of 78 Parkland students polled last week said the college's tuition increase next fall will not affect their enrollment. Only 10 percent initially were aware of the price jump.

Parkland Communications students conducted a survey of 64 full-time and 14 part-time students concerning the increase from \$17 per semester hour to \$19.50. This price applies to in-district students only.

"I guess it's necessary," said one student. "I'm only taking two courses, so it doesn't really matter that much."

However, 82 percent of the students interviewed were enrolled full-time, which means they are attending classes 12 semester hours or more. The tuition in-

crease will cost a 12-hour, full-time student an extra \$30 next year.

Eighty-five percent of the students said the increase would not

affect the amount of hours they will take. "It's still cheaper than the U. of I.," a student said.

Still, 15 percent of those surveyed said the increase will affect their enrollment and the number of hours they will be able to take. These students will have to apply for financial assistance or seek some other means of supporting their added financial burden.

"I don't see why Parkland has to increase," one student said. "They have more money than any other junior college around."

"If it benefits the school, that's fine," said another student, "but most college students don't have money the way it is."

The tuition increase apparently will not deter the majority of students from enrolling in the fall. As one student said, "Parkland's still a good bargain."

Submit petitions now!

All students who will complete degree or certificate requirements by the end of the 1983 Summer Session are urged to participate in Commencement ceremonies which will be held at the Krannert Center for the Performing Arts on May 17.

Graduating students must submit a petition to graduate to the Office of Admissions and Records (X163) as soon as possible to determine graduation eligibility.

The deadline for graduating students to order their caps and gowns is Fri., May 6.

Orders may be placed in the Placement Office from 8 a.m. to 5 p.m. daily. Graduates may also pick up their five reserved admission tickets at that time and purchase graduation announcements. The cost for announcements is \$1.75 for a packet of five announcements.

Commencement ceremonies will begin at 8 p.m. on Tues., May 17.

Guest speaker will be political scientist and futurist Dr. Leon C. Martel.

Cindy Sherbert
Candidate for
Senator

Eddie Simpson
Candidate for
President

Time to vote!

Once again it's time for Parkland students to vote in Student Government elections.

As in other elections a disappointingly small percentage of students will actually vote, but this lack of interest, alas, will not continue.

Miraculously, once the new members take office hundreds of students will have thousands of words to say concerning how badly they are represented.

Turn this process around and make your voice heard now.

StuGo candidates offer platforms

Bill Chapman Candidate for Senator

If elected I will work to best of my ability to be accessible to the student body. I will consult the students for their opinions on any issues that are being discussed by the student government.

One thing I am in favor of is picture I.D.s. I promise to work to bring this about. The students have said they want them, so they should have them.

I guarantee that I will not act without consulting the students for their opinions.

Thank you for your support.
Bill Chapman

Todd Chesnut Candidate for Vice President

Hi! My name is Todd Chesnut and I am running for the office of Vice President.

I am in my second year at Parkland, and I plan on entering the field of law. I am currently serving as Vice President of Phi Beta Lambda, a professional business organization here at Parkland.

My reason for running for Vice President is a simple one. StuGo needs to be restructured from scratch, and I feel that I can effectively help do it.

During the past few years, Parkland students have taken on an apathetic feeling toward StuGo, the reason being that they (the students) don't feel that StuGo is representing them and is instead spending unnecessary time/money on trivial issues, which don't affect their everyday life at Parkland.

Some of my plans as Vice President are to 1) work closely with the different senate committees to improve student/StuGo relations, 2) to help oversee proper handling of StuGo money flow, and 3) to see StuGo once again be a good representative of the students.

After all, if it weren't for the students, there would be no Parkland College—a fact which will be

foremost in my mind as Vice President.

Travis Dowell Candidate for Senator

Platform not available at press time.

Tammy Ellington Candidate for Senator

I am Tammy Ellington and I am running for re-election to the office of student government senator.

I will try, to the best of my ability, to meet the needs of the student body. I feel that there should be better communications between the students, teachers, and student government.

If elected I will do my best to see this come about.

Rich Harris Candidate for Senator

Communications is what we need. I think that StuGo's main problem is NOBODY KNOWS WHAT THEY DO!

I'd like to see more projects that directly benefit the average student, and more student input on the decisions made.

StuGo works now; I think I can make it work better.

Why? Because I'm new and can bring some new ideas into office with me.

So please vote for me, and help me help you.

Dale Kirks Candidate for Vice President

My name is Dale Lynn Kirks, however all my friends call me "Chipper."

I am running for vice-president of Student Government. Even though I have only been on campus for only one year, I can see many things that need to be done.

I will strive to have better communications between Student Government and the student body. I will present any and all ideas the student body has to the rest of Student Government and the administration.

I am also going to try and get better person to person relationships between faculty and students.

I will also meander around the campus talking to the students, trying to get to know them better.

Just remember, "It works with Kirks."

C. Michael Morrison Candidate for President

Platform not available at press time.

Mark Murphy Candidate for Senator

In order to fully exercise the power of Student Government, I propose the following objectives:

1. Abolition of all restrictions, express or implied, on StuGo's powers to consider, vote, and take effective action on any issue presented to it.

2. Elimination of administration presence at StuGo meetings.

3. Accessibility to and voting rights on important issues, including hikes in tuition, activities, and registration fees.

My qualifications are:
• Former AFL-CIO elected union steward and contract negotiator, Local No. 157, Terre Haute, Indiana.
• Active member—C.A.A.R., Phi Beta Lambda.

• 3.84 GPA, Business Administration

Julie Natterstad Candidate for Senator

I am Julie Natterstad. I am senator on Student Government this semester and I am running for re-election for next year.

During that time, I have learned a great deal about how an organization such as Student Government is run. This experience would be beneficial in providing direction to the new Student Government.

I would like to see the image of StuGo change and I feel this can happen only with cooperation and communication between the students and their student government.

I feel the students need to be involved and informed on what the Senate is doing at all times. If elected, my goals would include:

• a section of the weekly PROSPECTUS be devoted to student Government Activities, projects, and a report on Student Government Meetings.

• setting aside a specific time and place for Student Government to receive questions, comments and criticism (example: a table in the college center during college hour)

• devoting more Student Government time to activities directly related to interaction between students and their Student Government such as concerts, Presidents Breakfasts, Spring Out and Fall In.

I feel that changes need to be made at Parkland and in Student Government, and by being reelected I will do my best to make the necessary changes take place.

Please vote for Julie Natterstad, Ballot No. 51.

Cindy Sherbert Candidate for Senator

I would just like to say that in running for the position of Senator in StuGo I'm not looking for prestige or popularity.

I'm running because I've heard a lot of complaints about StuGo and I'd like to get in there and try to help run it fairly and represent the students of Parkland College honestly.

I would also like to get the students of Parkland College more involved in their Student Government and in the quality of their education since we, the students, are allowed a say in these things and should voice our opinions and make suggestions about how our school might better serve us.

So please vote for Cindy Sherbert, candidate No. 53.
Thank you.

Eddie Simpson Candidate for President

WHY ME?
by Eddie Simpson

President of Student Government is the position I seek,
Though GOD only knows why I'm running.

I guess it's because I'd be good at the job,
With my charm and my wit and my cunning.

I previously held the position of Senator;

My performance was not rated "shoddy."

Now I'm ready to lead you . . .
I've got what it takes . . .
The feel of a good student body.

I'm pre-engineering; I love Chem and Math.
(I'm slightly demented, they say.)

I'm easy to talk to . . . I listen quite well,
I'm friendly and cheerful . . .
(Not gay).

If I'm elected, I promise to serve With diligence, patience, and more.

I'll give the responsible leadership needed
To make Student Government sore soar!

opinions

Audience prompts reaction from student

To the Editor:

Mayor Harold Washington was the guest on the Phil Donahue show this morning. He is a very well-spoken man, and I feel extremely proud to have him representing black people in such a powerful position.

Donahue and his 70 percent white audience tried a numerous amount of times to trap him with their statements. However, he managed to answer them without evading the issue as so many politicians do.

When the audience found he was too intelligent to be trapped by such simple tactics, they retreated and attacked the black voters of the city.

In their attack they accused the blacks of being racists. That is absurd!

That statement is what prompted me to comment on this show since it made me very angry!

How dare any caucasian of this United States call my people racist!

They developed the race problem by trying to belittle our humanity to that of less than an animal, and they daily perpetuate the

existence of inequality through the school system and other high institutions in this country.

Sure, some ignorant (ignorance referring to lacking facts according to Webster), blacks voted for Washington because he was black and that is good, because it helps lift their ethnic and self pride.

Also in voting him in office they've allowed their black children to experience seeing a black man be more than a pimp, hustler or no-good parent as the media (TV, movies) would have them believe.

However it was grievous to see that so many white Americans in this day would believe that black people were so ignorant that the only way they voted was according to color.

For their information, there are many well-informed, intelligent black voters.

But, so what, if they did vote for him just because he was black. He can't make a larger mess of things than we as a nation are accustomed to seeing anyway.

He can't steal any more than the white man.

He can't be more untruthful than the white man has been.

In conclusion, he can't harm Chicago any more than the past

generations of government have other than giving a piece of the pie to blacks for a change.

Marilyn Leonard

PC is a 'special place'

Come May 17 I will be graduating from Parkland College. As I reflect back on my past two years here, I feel a sense of satisfaction and happiness.

There is a special feeling of warmth flowing in the atmosphere at Parkland. The teachers here are caring individuals whose greatest pleasure is to see their students achieve, learn and grow. This gives them satisfaction. They care about the person as well as the student.

The counselling department is

also a very special place at Parkland.

If a student has a problem with his schedule or just needs someone to talk to, the counselors are always there and accommodating to the needs of the student.

As I move on to a new college, Parkland will always have a special place in my heart.

Thanks to all of you who have had such a great impact in my life.

Best wishes
Leslie Susan Geiser

C.O.M.I.N.G

a four-page South Annex supplement in our May 4 issue

Our Graduation special, the last paper of the semester, on May 11.

Students prefer national issues over local

by David Hays

Judy Yeager, elected as an at-large member of the Champaign City Council on April 12, believes students rarely vote in city elections because they are more interested in national issues than local issues.

"A lot of times, when it's only a city or local election, students may be registered elsewhere or are registered here but don't feel comfortable with city politics,"

Yeager explains. "They are more concerned with national or state politics, and so you don't see a lot of students getting excited and going out and voting in local elections."

Yeager, who led all candidates in the at-large election with 3,842 votes, says that students who wanted to vote were more concerned about her stand on the national issues than what she could do for the city of Champaign.

Yeager, a newcomer in city poli-

tics, campaigned in every segment of the city on major local issues.

"I felt it was very important to make certain that the people realized what I stood for, and I just wasn't running a campaign that said beat somebody, back somebody, or re-elect somebody," she said. "I wanted people to realize that I was a real person and was running on real issues."

Yeager ran her campaign on the basic platform of putting city gov-

ernment "back in the hands of the people" through elected officials.

"I think that people need to see, immediately, that the Council is making the decisions, that it is not coming from the city manager point of view," she said.

After the new Council members are sworn into office May 3, they will go into the community to listen to their constituents and attend public hearings, she said.

Another major goal of the Council is to establish a long-range plan to deal with solid waste disposal. When the recently opened landfill

in Urbana is filled, the City must have a plan as to where the garbage will be dumped.

Yeager also campaigned on working for a strong Human Relations Commission and providing the police and fire departments with enough money and personnel.

She has also been a member of the Champaign County Crime Prevention Council for six years and helps to coordinate such crime prevention programs as Neighborhood Watch groups, which are organized in some 40 neighborhoods in Champaign County.

Annex plans student exhibit during April 29 open house

An April 29 Open House for Parkland College's new South Annex building has been planned in conjunction with the College's annual exhibit of student art works.

The Open House, from 9 a.m. to 5 p.m., will feature a wide variety of activities, including an outdoor pottery firing, paper making, an outdoor sculpture event, and a

rear screen slide display of arts activities. The South Annex art studios will be open to all visitors.

The Parkland Art Gallery's exhibit of juried art works opens April 25 and continues through May 5. The Gallery is open to the public Monday-Friday, 10 a.m. to 4 p.m., and Tuesday-Wednesday, 6-9 p.m.

Those works chosen by the Parkland art staff for the exhibit will come from a broad base of entries representing the tradition art areas of painting, drawing, ceramics, sculpture and photography. Stained glass pieces and hand crafted jewelry will be included. Awards will be given to works of outstanding merit.

Arbor Day offers planting ceremony

Everyone is invited to celebrate Arbor Day, Fri., April 29, by helping plant six white walnut trees in Parkland's Arbor Day Grove.

The Grove was established in 1980 and is located south of the campus on a low rise near the barn fronting on Bradley Avenue.

This area will remain undisturbed and each year new trees will be added. The proper technique for planting trees will be demonstrated at each of the four tree-planting ceremonies scheduled for 9, 10 and 11 a.m. and noon.

Celebrants can also share in music and other activities planned for each ceremony.

It is especially fitting for us at Parkland to celebrate the impor-

ance of trees.

One has only to look at the college name, college crest and campus landscaping to see the major role that trees have for us here at Parkland.

On Arbor Day even, Thurs., April 28, the Peppermill Stringband will give a concert of traditional stringband music at noon in the College Center to get in the spirit for the tree planting festivities on Friday.

A local group which has been performing in the area for several years, the Peppermillers play Irish jigs, reels, airs and American mountain music on a variety of instruments. Along with the more familiar guitar, bass and fiddle, the group features the hammered dulcimer, which produces dulcet harp-like music.

Students to perform at talent show

The Parkland Music Association is planning an evening of entertainment, including its annual Talent Show and a musical showcase, for Thurs., April 28.

The Talent Show, beginning at 7:30 p.m. in the College Gym, will feature a wide variety of entertainment. From 5-7:30 p.m. the Parkland Dixieland Band, Swing Choir and several other musical groups will perform in the College Center. Refreshments will be available.

Tickets for the Talent Show are \$1 and may be purchased in the Student Activities Office. Tickets purchased at the door will be \$1.50, and senior citizens will be admitted free.

The Parkland Dixieland Band will appear at the PMA-sponsored Talent Show on Thurs., April 28. Photo by Danny Lattimore

Ag students win national awards

The National Postsecondary Agricultural Student Organization is the vocational organization for students in agriculture, agribusiness and natural resources programs in postsecondary institutions offering associate degrees or vocational diplomas and/or certificates. Founded in 1980, the organization emphasizes the development of technical and personal skills to be used in the workforce. Leadership opportunities, state and national competitions and educational projects are emphasized.

Parkland College students Mark Wood, Champaign, and Carol Breymeyer, Watseka, have won national awards in competition

sponsored by the National Postsecondary Agricultural Student Organization (PAS). Wood won the 1983 National Beef Industry Award and Breymeyer the 1983 Corn Production Award of Partners in Agricultural Leadership/Personal Education, Evaluation and Recognition (PAL/PEER).

Wood, a sophomore in Agricultural Production at Parkland, will graduate in May. Breymeyer is a freshman in an agriculture transfer program.

As national winners, Wood and organizations, who provide financial support and project guidance.

The PAL/PEER project encourages students' technical and

professional development through two phases. Postsecondary agricultural students conduct PAL surveys with local agri-businesses to identify job skills. During the PEER phase, students devise and carry out their own educational plans.

Eight project areas specify guidelines upon which award decisions are based.

The PAL/PEER project is sponsored by eight leading agriculture industries and Breymeyer received plaques and \$500 cash each during the PAS national conference held in March in Sioux Falls, South Dakota.

Students petition for added course

Students who have completed the introductory Astronomy course, AST 101, may enroll in an independent study course being offered for the first time next fall.

The course will cover selected topics in Astronomy and is listed in the timetable as IND 288-099. This is a 3 credit hour offering, and will meet on Tuesdays from 1 to 2:50 and on Thursdays from 1 to 1:50. No laboratory is involved, although students who desire laboratory experience may make special arrangements with the instructor.

According to the instructor, Dave Linton, the course was originated through student initiative. At the beginning of the semester, fifteen former Astronomy students petitioned Math-Physical Science Division Chairman Gayle Wright for such an offering.

c-u happenings

The Adoption Triangle will meet Mon., May 2, from 6:30 to 8:30 p.m. at the First United Methodist Church, 210 West Church, Champaign.

The Adoption Triangle is an awareness group which offers members support, as well as provides a forum for discussion on adoption, related topics, thoughts and concerns. The group is open to those persons who have personally experienced adoption, as well as "interested others."

The Triangle was formed in cooperation with Children's Home and Aid Society of Illinois and Family Service of Champaign County.

May Fest, featuring musical entertainment, an information fair and the arts and crafts sale, will be held from 10 a.m.-3 p.m., Fri., May 6, at the Market Place Mall, Champaign.

Parkland College will host a Disaster Management Workshop for Emergency Medical Technicians from 8 a.m. to 5 p.m., Sat., May 7. Participants must register by April 29.

EMT's will receive eight hours of credit toward recertification for attendance at the workshop. The registration fee is \$8.

Additional information is available from Parkland's Life Science Division, 351-2277.

Chanute AFB is looking for artists and craftspeople from area communities to exhibit their work at the May 7 opening of the base's new arts and crafts center. Work on exhibit also may be sold. Deadline for submissions is 4:30 p.m., May 3.

Interested parties may contact arts and crafts director Rick McDonah at 495-2532 or 495-4191 for details.

April 29 is the registration deadline for senior citizens who want to participate in the arts and crafts sale at the Senior May Fest. Registrations are being accepted by the Parkland College Program for the Long Living.

The eighth annual Senior

An abundant variety of spring wildflowers now in bloom may be seen during an Open House at Parkland College's nature preserve, Patton's Woods, from 1 to 4 p.m., Sun., May 1.

Activities available to those who visit this 14-acre tract of native hardwood forest include birding, wildflower walks, photography and a self-guiding nature trail. Most of the woods have never been disturbed by human activity and contain many plants uncommon to this part of Illinois.

Patton's Woods can be reached by traveling east on U.S. 136 from Rantoul, past Gifford to County Road 2500E, then north six miles.

Uneasy riders given help

Beginning motorcycle riding courses are being offered to anyone 16 years of age or older who is an Illinois resident and holds a valid automobile or motorcycle driver's license or permit. Residency is normally established by living within the state. Military personnel, their dependents, and students enrolled in Illinois schools are considered to be residents for the purpose of enrolling in this course.

Persons under 18 years of age must have written consent of their parent or guardian at the first class meeting.

The 20-hour course will include:

- 12 hours of on-cycle instruction
- 8 hours of classroom instruction
- Use of a small (100-250cc) motorcycle and helmet
- Free course textbook

To register phone the nearest

course site listed on the back of this sheet or call our office. If you are placed on a waiting list, please attend the first class meeting. There is an excellent chance that you will be admitted into the course.

All riders must wear the following:

- Over-the-ankle boots with no more than 1½ inch heels
 - Long, straight-leg pants of a heavy material
 - Long-sleeved shirt or jacket and leather gloves
- (You must be dressed properly to ride the motorcycles.)

This year, an 8-hour workshop will be offered for the experienced motorcycle rider.

For registration and any questions on either course, phone (217) 333-6239 or 1-800-252-3348.

Secretaries receive national recognition

by Diane Ackerson

Eighty-three of Parkland's employees are the center of attention this week as the nation celebrates National Secretaries Week.

Parkland's secretarial pool includes 63 clerical workers whose duties range from filing and answering phones to word processing. The remaining 20 employees are listed as secretaries whose duties vary, depending on the office in which they work.

Parkland's first employee, Rachel Schroeder, was originally hired as a secretary in October, 1966. She held the title of secretary for 16 years.

Schroeder advises students in

office careers to "continue education." She says, "Knowledge of word processing is very important, and is becoming increasingly important."

"For a top-level secretary," she continued, "I would stress shorthand; there's always a need for it. It's also very helpful in taking phone messages."

Schroeder's position at Parkland is still a supportive one, although she no longer bears the title "secretary."

Last year she became Parkland's first administrative assistant to President William M. Staerkel, leaving Judy Moran, secretary to Vice President Donald Swank to hold the title "longest employed secretary" at Parkland.

Word processors are only part of the equipment students like Lisa Henricks learn to use as part of their secretarial studies. Photo by Ken Ferran

Acid rain becoming a dangerous problem

by Mike Wallner

"Pollution pumped into the atmosphere by Midwest factories, smoke stacks and car emissions blown toward the northwest is the cause of acid rain," says Michael J. Slater, assistant supportive scientist at the Illinois State Water Survey.

Acid rain is defined as any rain that falls from the sky with a P.H. reading lower than 5.6, because anything lower than 5.6 is considered to be acidic.

Acid rain is most prevalent in the northeast portion of the U.S. and in Canada because the prevailing winds blow the pollution in that direction.

The effects of acid rain are becoming more dangerous. It has been determined that acid rain with a P.H. of 4 in lakes will destroy fish and other wildlife around it and the land near the lakes. Acid

rain has also been known to erode statues.

Now, a lot of studies are being conducted in the U.S. and Canada to determine the precipitation and effects of acid rain. Also the Clean Air Act has been implemented to regulate the amount of pollution put in the air.

The Illinois State Water Survey is involved in trying to stop acid rain. The Central Analytical Lab and the National Analytical Deposition Program is a nationwide program serving 110 sites covering the United States, Alaska, Hawaii, American Samoa, and Canada. These sites send rain samples to the Water Survey and Mike Slater for analyses, and the results are returned to the sites.

These programs are funded by many government groups such as the Department of Energy, Department of Agriculture, and National Oceanic Atmospheric Program.

Typing and other secretarial work used to be strictly women's work. Today young men as well as young women find it an advantage to know the fine points of typing. Photo by Ken Ferran

Gray honored for research

Paula Gray will receive the Parkland College Communications Division Faculty Scholar Award for her research on "Pioneers of the Platform: The Emancipation of Women's Public Speech." The award ceremony will be at 2 p.m., Sun., May 1, in room C140 at Parkland.

Established in 1982 by Communications Division Chairman Paul Batty, this award recognizes outstanding scholarship and re-

search by Communications faculty. Faculty scholars are chosen each semester for the quality and intrinsic interest of their research projects. Recipients receive a plaque and a monetary award.

A native of Rantoul, Gray earned an A.A. degree at Parkland. She has received B.A. and M.A. degrees from the University of Illinois, and is currently completing doctoral work in speech communication at the U of I.

The primary focus of her work is uncovering and dramatizing the history of American women, especially that of the nineteenth century. In addition to teaching speech and directing theatre at Parkland, Gray has written and performed professionally in "Petticoats, Principles, and Perseverance: Women from 1880-1940" and "From the Diary of a New York Lady: An Evening with Dorothy Parker."

Team participates in livestock judging

The Parkland College Livestock Judging Team participated in the North Central Evaluation Clinic at Madison, Wisconsin. Eight community colleges with 13 different teams and 92 students participated. Parkland team members included Greg Franklin and Kurt Wells of Farmer City and Carol Breymeyer, Watseka, and Brad Thomas, Clinton.

The North Central Evaluation Clinic consisted of three divisions: judging of breeding stock, market animal division, and meat or carcass judging.

The Parkland team finished fourth in the meats division with Brad Thomas and Greg Franklin

finishing 20th and 25th. The team also finished 7th and 8th in the market and breeding animal divisions. Kurt Wells placed 29th in the market animal division and

Carol Breymeyer placed 31st in the breeding animal division. Overall, Parkland finished 6th with Brad Thomas as high individual placing 30th in the entire contest.

Pilot.

The better ball point pen.

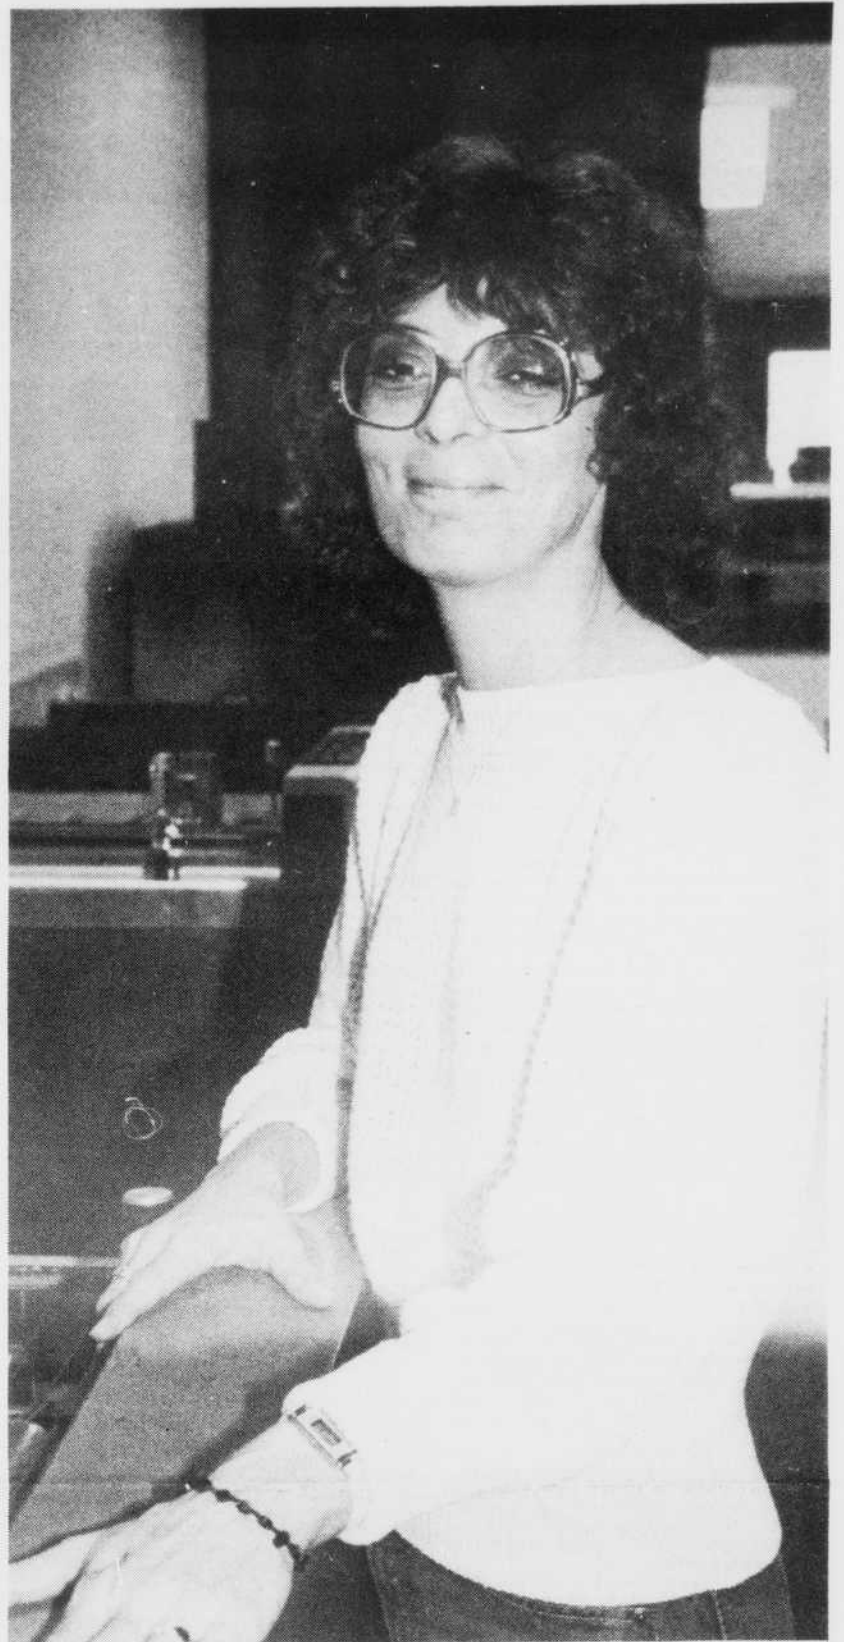

When it runs out you won't have to.

The exciting Pilot Ball Point. It's got everything going for it. Smoother writing. Specially designed finger ribbing for continual writing comfort. Stainless steel point. Tungsten carbide ball. Perfectly balanced. A choice of medium or fine points. And best of all...you'll never throw it out. Just slip in a 39c refill and you're ready to write again. So next time your old scratchy see-thru pen runs out, run out and get a 69c Pilot Ball Point pen... plus a few refills.

Lori Jones, placement counselor Homer Foster's secretary, Cindy Melton, secretary to the assistant dean for special admissions and international students Thomas Neal, and Lisa Lowry, secretary to the dean of students Harris Moeller, put in a final burst of energetic work before lunch time.

Jackie Scogin has the situation well in hand as a secretary in the Data Processing Department.

Business Division secretary Terri Jones is still at her desk even though it may be lunch time for others.

Skylines

by Dave Linton

Many students and faculty visited the Astronomy Club's model of the Solar System last week. They came away, I'm certain, with a far better awareness of the minuteness of our world when compared both to other worlds and to the distances which separate them.

Just as cosmic distances dwarf the distances of our experience, so also do our experiences with time shrink in comparison with cosmic time scales.

A useful way of communicating this expanse of time was pioneered a decade ago by Michael Chriss of the College of San Mateo, California, and expanded upon by Carl Sagan in his Pulitzer prize-winning "Dragons of Eden" in 1977. In their scheme, we are asked to imagine the entire passage of time, from the origin of the Universe some 15 billion years ago up to and including this very moment, to be compressed into a single year. In this "cosmic calendar," almost 500 earth years would be squeezed into a single second.

At the very beginning of the Cosmic Year, the Universe originates in a colossal explosion that we have come to call the Big Bang. The Universe, containing all the matter we know today, expands from a single point.

It is not until mid-September that the sun and planets, including the earth, are formed. On the earth, the methane and ammonia clouds gradually begin to break down into hydrogen and oxygen, and water rains down upon the earth's surface. The oceans are gradually formed, even though the surface of the earth remains quite hot.

By mid-November, single-cell organisms are found in the warm ocean waters, although simpler forms of life had come into existence before September had passed.

In mid-December, the first vertebrates appear, and plants begin to colonize the land. Amphibians and then reptiles appear, and Dinosaurs rule the earth from December 24 until December 28, when they become extinct.

On December 30, the Rocky Mountains are lifted up, and the Colorado river begins to cut the Grand Canyon. Mammals dominate the earth, undergoing tremendous evolutionary changes.

Starting in the late evening of December 31st, glaciers advance and retreat numerous times from the polar regions. Recognizable men appear about 10:30 p.m. The soil is first cultivated 40 seconds before the end of the year, and the first cities appear 15 seconds later. Four seconds before the end, the Christian era begins. Columbus discovers America with 1 second to go, and the Declaration of Independence is sign half a second before midnight. World War II is a pop that occurs just 1/10 of a second before the end, and Parkland College springs from the ground only 1/30 of a second before midnight.

A cosmic perspective on the passage of time can diminish the seeming importance of our troubles. But it can also make us acutely aware of our heritage, of the events which preceded us and which have led us to our position on the Cosmic Calendar.

Mr. Mitch,
Five already? Happy birthday!
Your neighbor
Ami

CLASSIFIED AD PROCEDURES

Classified ads in the Prospectus are run free of charge for students, faculty and staff of the college. The following rules should be followed:

- Copy should be typewritten
- Copy deadline is Thursday at 3 pm
- Classification under which the ad is run should be indicated
- If the ad is to run more than one issue, number of times should be indicated
- Limit of 35 words
- Personals run only one time
- Business classifieds and classifieds for non-student, faculty, staff are payable in advance—\$3.00 per insertion
- Name and phone number must be included with ad for office use.

Branigan joins sell-out crowd

by Jimm Scott

"Branigan 2" is a very puzzling album, and Laura Branigan is a very talented artist—as well as being a very beautiful woman.

The songs have an air of quality, although they aren't as consistent as one would desire.

There is "Solitaire," a very fine song in its own right, (as are the rest of the tunes on this album) but an obvious MOR attempt to follow up her recent success with "Gloria."

Although the authors of the songs are as different as black and white, ranging from members of her band to heavyweights like Pete

Townsend, it really makes no difference who were responsible for writing the songs on "Branigan 2." Branigan simply should have spent more time and effort in the studio instead of rushing out a follow-up album to bring in some extra almighty bucks.

Branigan could be a very respected singer if she chose to. She has statuesque beauty and a soaring vocal range, but she chooses to sell out for commercial and financial success.

Yes this is some good music here but two questions: how much feeling was put into this? And is it Rock and Roll?

A very puzzling question indeed.

Trivia quiz

Once again, the Trivia Quiz is worth \$5 to the lucky winner. It is not necessary to fill out every answer on the quiz. The winner will be determined by how many questions have been answered correctly.

The deadline for returning this quiz to the Prospectus office is noon, April 26. Please fill out the quiz as fully as possible.

1. In what 1955 film did William Powell, Henry Fonda and Jack Lemmon star in?
2. Who portrayed Admiral Sherman and Lt. Crandall in the 1959 film "Operation Petticoat?"
3. Name the actress who played a dual role in the film "Here Comes the Waves."
4. Name the characters that Katharine Ross and James Farentino played in the film "The Final Countdown."
5. Name the actor who played Capt. Willard in the film "Apocalypse Now."
6. Name the actress who portrayed Jeanine in the recent film "Ordinary People."
7. Name the character that Al Pacino portrayed in the film "The Godfather."
8. Name the actress who portrayed Cora Smith in the 1946 film "The Postman Always Rings Twice."
9. Name the character that David Niven portrayed in the 1981 film "Rough Cut."
10. Name the actor who co-starred with Shirley Temple in the film "Wee Willie Winkie." (His character was Sgt. McDuff).
11. Name the actors who portrayed Jo Stockton and Dick Avery in the 1957 film "Funny Face."

Name: _____

I.D. No. _____

Compiled by Thomas Price

Stumped?

Here are the answers to the April 6 Trivia Quiz, remember, you do not have to have every question answered to return the quiz. Please try and fill out the next one to the best of your ability.

1. Mickey Spillane
2. Hercule Poirot
3. Ricardo Cortez
4. Barry Nelson from the television series "Climax"
5. "Marlowe"
6. Peter Lorre
7. James Mason
8. Sam Spade, Jr.
9. Charlie Chan
10. Sir Hillary Bray
11. Henry Silva
12. "Another Thin Man"
13. Myrna Loy and William Powell

Clapton emerges as major blues artist

by Jimm Scott

I approached Eric Clapton's latest album, on Duck Records, with some degree of hesitancy. Slowhands' solo songs have been melting together like so much spoiled ice cream — could Clapton be winding up to entertain the teenyboppers?

HELL NO, bite your tongue! Not with a track record that includes the Yardbirds, John Mayall's Bluesbreakers, Cream, Derek and the Dominos, Blind Faith, and Plastic Ono Band (to name but a few). Clapton has also appeared on four solo albums on his own; this will be his fifth.

With an already formidable reputation growing, Clapton is quickly becoming one of the most outstanding of the second generation blues players. But in these 10 tunes, a bit of country flavoring

lurks in the rock and roll. (Not much, but enough to let you know it's there.)

True to the MOR policy, "Money and Cigarettes" contains the obligatory single "Rock and Roll Heart." On side one an upbeat song owes a lot to Dylan's song from the early sixties "All Along the Watchtower." "Slow Down Linda" on side two sounds quite a bit like "Lay Down Sally," a hit song from a few years back.

Clapton also does his share of cover versions on this album — everybody from Sleepy John Estes to Johnny Otis.

It's amazing, only a few weeks ago I was talking about the beauty of simple music and mourning the lack of it. It was Clapton who made it palatable domestically — you just have to sort through all the crap to get to the good stuff.

Mini-smoker arrives

by Jimm Scott

It may just be because of my excitability, but when I saw the Rockats, performing live they demonstrated that they had a certain spark that few groups seem to retain!

"Make that Move" is one of those albums...excuse me mini-albums, that I would recommend to try to explain what Rockabilly was all about.

The Rockats entertain an audience without making the

compromise...excuse me mini-compromises, that you see most of the MOR, top 40 people doing. They sweat for applause.

This latest album...mini-album is a mini-smoker. For all of you who haven't yet found out about the Rockats, the group is made up of Dibbs Prestion, Smutty Smiff, Barry Ryan, Danny B. Harvey and Mike Osborn.

There are six songs on the album...excuse me mini-album, five original, one an old Smokey Robinson (Tears of a Clown) tune.

You can borrow \$2500 this year.

Pay your college education expenses with a University Federal Illinois Guaranteed Loan. You can:

- ▶ Borrow up to \$2,500 each year (\$5,000 for graduate students).
- ▶ Qualify for your loan by meeting only IGLP requirements.
- ▶ Pay only 9% interest (for first time applicants).
- ▶ Begin making payments within 6 months after graduation.

You can apply immediately for a loan. Just phone or stop by for more information. We can help you.

PC women's team takes two from Danville

by Danny Lattimore

Parkland Women's Softball team played two conference games Wed., April 20, against Danville and won both, 10-4 and 6-5.

Angie Dilliner, the starting pitcher in the first game, struck out three players and walked five.

Kathy Thomas led the way to victory with three steals. Peg Blacker got four R.B.I.'s as she hit in Paula Jones in the first inning and Peg Sallade and Angie Dilliner in the third.

Sallade scored again in the fifth inning on Blacker's double.

Denise Balagna also hit two R.B.I.'s, scoring Blacker in the first and fifth innings.

Although Bonnie Carter was the starting pitcher in the second game, Dilliner relieved her in the third inning and went on to win the second game.

Connie Newcomb knocked in Blacker in the third, and Thomas and Blacker in the sixth.

Final statistics showed that in game one Danville had four runs, four hits, one error and Parkland

had ten runs, ten hits, and three errors.

In game two it was five runs, three hits, and three errors for

Danville and six runs, eleven hits, and two errors for Parkland.

The women's season record is now 6-6.

Team takes honors

Parkland's Men's Track Team took honors at the Monmouth Relays, April 14, at Monmouth College. Parkland edged the host school 88 to 86 by winning the last event, the mile relay. There were fifteen teams present at the competition.

Parkland's team was led by first place finishes in the pole vault, 100 meter dash, 4 x 100 relay, 4 x 200 relay, and the 4 x 400 relay.

In the field events, Jim Moeller won the pole vault at 12-6, Kerry Kelley placed fourth in the javelin with a throw of 157-10 1/2, and Jarvis Rogers placed fourth in the triple jump with an effort on 42-10.

On the track, Steve Wright won the 100 meter dash with a time of 10:45, which qualified him for the nationals. Randy Haney and Ron Gilbert placed third and fourth in

the same event. Matt McClure placed fourth in the 5000 meter with a time of 16:24.

On the relays, the 4 x 100 relay was won in a time of 42:29, the 4 x 200 in 1:29.37, and the 4 x 400 in a time of 3:24.4. Placing second for Parkland was the distance medley relay (1/2, 1/4, 3/4 mile) in a time of 10:45.4.

Third placings for Parkland were the 4 x 800 relay in 8:02.5 and the 4 x 1600 in 18:30.2.

Coach Lee LaBadie, first miler in the Big 10 to break the four-minute mile, said, "This win was totally a team effort."

Parkland travels to the Purdue relays on April 22-23 and Dowagiac, Mich., on April 30. The women's track team will also participate at Purdue and Dowagiac.

Golf coach resigns

Richard Norris, golf coach at Parkland College for the past two seasons, and previously from 1969-74, has announced his resignation from that position, effective immediately. Norris said he is quitting as coach in order to pursue outside interests, but will remain at Parkland as an instructor in the recreation curriculum in the college's physical education division.

Under Norris last fall (Parkland

competes in golf during the fall), freshman Jim Thompson of Urbana finished seventh in NJCAA Region XXIV, and thus qualified for the national tournament which will take place June 7-10 at Lehigh Acres, Florida.

Norris' teams won the Central Illinois Athletic Conference (CIAC) championship in 1981, and took second in the CIAC last fall.

Sports schedule

WEDNESDAY, APRIL 27 1 p.m., Men's baseball, Kankakee Community College (Kankakee, IL) AT PARKLAND, two games* (makeup from April 9)

THURSDAY, APRIL 28 1 p.m., Men's baseball, Kankakee Community College (Olney, IL) AT PARKLAND, two games

FRIDAY, APRIL 29 1 p.m., Men's baseball at Wabash Valley College (Mt. Carmel, IL) two games

SATURDAY, APRIL 30 1 p.m., Men's baseball at Rend Lake College (Ina, IL), two games

*Central Illinois Athletic Conference (CIAC) games

APRIL 26-30: Women's softball sectional tournament at Lincoln Trail College (Robinson, IL).

Reminder!

Equipment manager Randy Henkels would like to remind all students that the last day to receive their locker refund or renew their locker space is May 10, 1983.

Contact Henkels for more information.

Notice to Sports page readers

There is no coverage of men's baseball this week due to the fact that statistics, which I had requested, were not sent to me.
