

A Study of Parkland Student Social Life

- Presented by Lily Lincoln, Mitchell Flanagin, Michelle Morrison, Daniel Wyckoff, & Matthew Griffith

Research Question

How do Parkland students socialize considering Parkland is a community college?

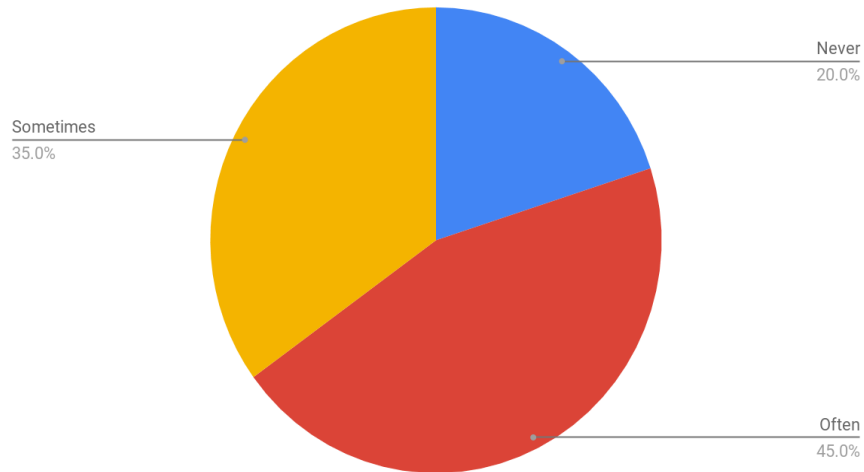

Procedure

To gather data for our study we surveyed people at random twice and conducted several in-person interviews.

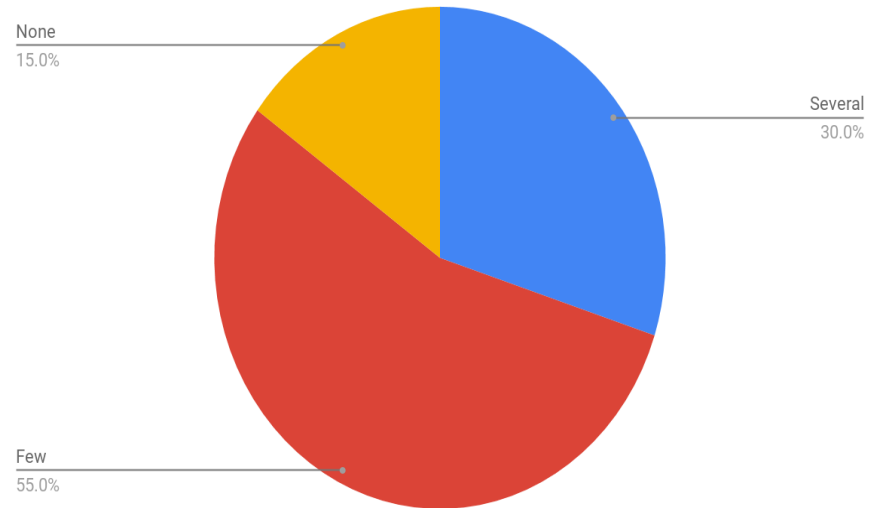

Statistics

How Often Parkland Students Socialize Outside of Class

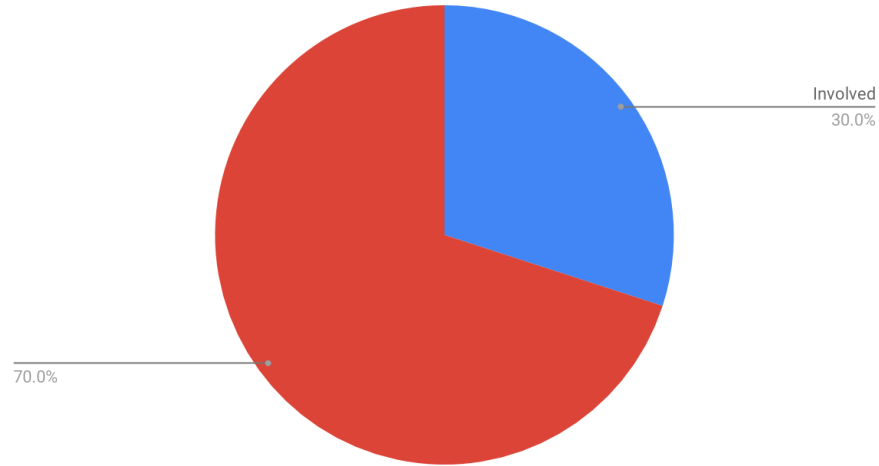

Good Friends Made at Parkland

Statistics

Parkland Student Involvement in Clubs

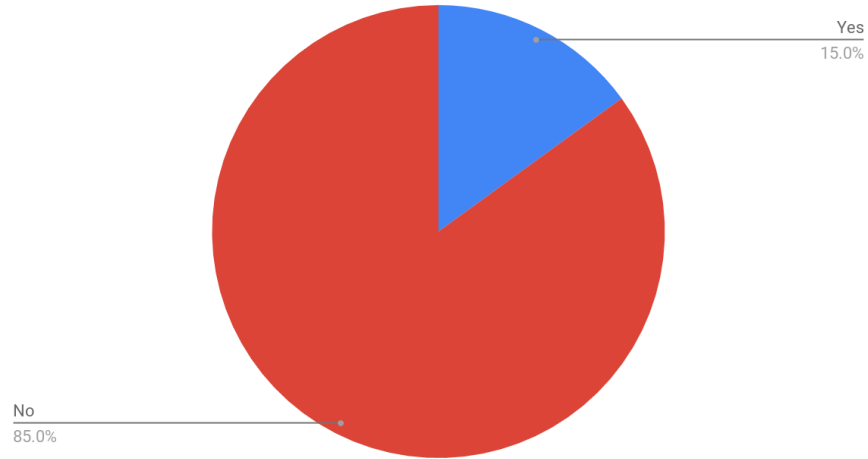

Percent of Parkland Students Actively Seeking Friendships

Statistics

Does Age Matter When Forming Friendships?

Has Technology Impacted How We Socialize?

Findings

Our findings show that a majority of students at Parkland are actively seeking a social life through Parkland. Parkland students tend to socialize with classmates outside of class often. Students socialize some of the time with others at Parkland.

Conclusions

Students are generally positive about their social lives at school and do actively look for friendships and social connection at Parkland. Students are able to find friends through Parkland.
