Open access to this Course Materials is brought to you by Parkland College's institutional repository, SPARK: Scholarship at Parkland. For more information, please contact spark@parkland.edu.
COURSE TITLE:  Fundamentals of Nutrition

DESCRIPTION:  Students examine food sources and functions of nutrients, nutrition standards and guidelines, principles of weight management, and relationship between nutrition and health. The course stresses practical application of nutrition concepts and explores current nutrition controversies.

PREREQUISITES:  None. However, a basic understanding of math and biology will be beneficial.
Instructor:  Toni Burkhalter
E-mail:  E-mail within Cobra or TBurkhalter@parkland.edu
Phone:  217-351-2469
Office:  L214
Student Hours:  9-10am on Tuesdays in L214 or any other time by appointment.

TEXT AND SUPPLIES (required):
I-Clicker, No Author, ISBN 0-7167-7939-0, Publisher Mps

USEFUL WEBSITES:
Parkland’s Homepage: www.parkland.edu

CAS – Center for Academic Success
If you find yourself needing assistance of any kind to complete assignments, stay on top of readings, study for tests, or just to stay in school, please contact the staff at CAS. Phone: 217/353-2005
To find out more information about CAS visit room D120. http://www.parkland.edu/resources/cas/

Disability Services
If you believe you have a disability for which you may need an academic accommodation (e.g. an alternate testing environment, use of assistive technology or other classroom assistance), please contact: Cathy Robinson, Room U-260, 217-353-2082, crobinson@parkland.edu

Upon completion of this course, students will be expected to:
1.  Describe functions and food sources of nutrients in the six categories discussed.
2.  Use meal planning tools.
3.  Interpret information found on food labels.
4.  Describe and discuss principles of energy balance and weight management.
5.  Explain the ways diet can influence health, especially with regard to the development of heart disease, cancer, and osteoporosis.
A Code of Conduct Reminder from the Parkland College Dean of Students
All Parkland Students are expected to be responsible for their behavior. This includes monitoring your language and your behavior all around the campus, including in and out of classes. Please, think before you act! You are expected to respect yourself, your fellow students and your instructors. You have joined the Parkland College academic community. Be a good member of the community. View the Student Policy and Procedures Manual and Conduct Code on line at www.parkland.edu/studentLife/policies
Questions or concerns – Call the Office of the Dean of Students at 353-2048

Academic Honesty
Parkland College’s values include honesty, integrity, and responsibility. Students, faculty, and staff are all expected to maintain academic integrity in their work and take collective responsibility for preventing violations of intellectual ownership. Academic dishonesty is unacceptable, and the institution is committed to helping students learn these values through development and growth. Personal commitment, honest work, and honest achievement are necessary characteristics for an educated person. The process of determining the consequences of academic dishonesty begins with the faculty member and may proceed to include the department chair and/or the Office of the Vice President for Academic Services. All Incidents of academic dishonesty, including developmental or punitive action, should be referred in writing to the Office of the Vice President for Academic Services. Academic Honesty can be broadly defined as performing academic work without cheating, fabrication, or plagiarism:
  a. Cheating: Using or attempting to use unauthorized materials, information, or study aids in any academic activity. Submitting as one’s own work term papers, homework, and examinations that are not one’s own work or for which a student received unauthorized help. Copying the work of another, or allowing another to copy one’s own work, without proper acknowledgment.
  b. Fabrication: Falsifying or inventing any information or citation in an academic activity.
  c. Plagiarism: External information borrowed and directly quoted must be indicated by use of quotation marks, and any changes, omissions, or addition to the direct quotation must be shown in bracket, and the source documented. All cited external information that has been paraphrased and summarized must also be documented.
  d. Collaboration: Students at Parkland College are encouraged to work together on group projects, study, and other activities. However, work submitted to fulfill an assignment not specifically identified as a group activity must be substantially the work of the author. Instructors should provide guidelines to students to maintain the academic integrity of these collaborative activities. Collaboration beyond this constitutes academic misconduct.
1. **Attendance.** On time attendance and regular participation using the iClicker is required to maintain a student’s course grade and/or earn discussion points. If a student is late more than twice, it will be marked as an absence. If a student falls asleep or is repeatedly texting, they are not mentally present and may be counted as absent. Three or more unexcused absences will result in a 40 point deduction. Students are also expected to check their Parkland E-mail and Cobra a minimum of every Monday.

2. **Withdrawals.** After the first week of class, I am required to assess your attendance. If you have not completed the required material and/or have not attended class, you will be dropped with no refund of tuition or fees. After the first week of class, you should plan to withdraw yourself if you want to withdraw from the course. You are ultimately responsible for your own withdrawal.

3. **Module Quizzes.** A 20-point quiz will be given upon the completion of a module. The module quiz will cover concepts from book reading, lecture, assignments, material posted in Cobra, and discussion questions. A total of ten quizzes will be administered. The lowest quiz score will be dropped. The highest nine scores will be used to compute your quiz grade. You will receive a point total for each quiz, but no letter grade. **If a quiz is missed, unfortunately, there will not be an opportunity to make up a module quiz without documentation and instructor approval.**

4. **Discussion Points.** Each class period, you will be expected to actively participate in the class discussion using iClickers and contributing support information verbally or in writing.

5. **Video Quizzes or Assignments.** You will either be completing an assignment or a video quiz for each module (ten total). The lowest grade will be dropped and nine will count towards your grade. Assignments will be submitted through a drop box or assignment submission link within Cobra. Assignments can rely heavily on the book. Thus, the required text book is needed for success.

6. **Special Assignments.** You will be expected to complete two special assignments that will test your application of the material. Special assignments cover several modules and are similar to a student project. **There are no make-ups for special assignments.** As a component of one special assignment, you can either choose to volunteer in the community or with Parkland PUSH (Parkland United for Student Health) 10+ hours. Getting started early on both special assignments is encouraged.

7. **Final Exam.** Parkland College requires that a final exam be given during final exam week. Early administration of a final exam or an alternate final cannot be given, except in cases of approved emergencies or a death in the family. Once documentation has been provided and is filed at Parkland, an alternate final time can be arranged. Please plan vacation travel, job interviews, and work schedules to avoid conflict.

8. **Slow Computers/Bad Connections.** If you have more than one problem associated with a slow connection and/or a bad computer connection, please, contact me as soon as possible so I can help with anything that may hinder your success in the course.
METHODS OF ASSESSMENT

Quizzes (20 pts each x 9)................................. 180 points
In-Class Discussions (5pt x 10)....................... 50 points
Video Quiz or Assignment (10pt x 9)............. 90 points
Special Assignments (40 pts each x 2)......... 80 points
Comprehensive Final Exam.......................... 50 points
Total.............................................................. 450 points

PARKLAND COLLEGE SPRING SEMESTER 2015

- Students gain access to course material in Cobra Friday January 30th
- Instruction begins Tuesday February 3rd
- Professional Development Day (no day classes) Thursday February 26th
- Midterm March 13th
- Spring vacation March 21–29th
- Last day of classes May 7th
- Final examinations May 8-14
- Grades will be entered within 2 hours of the final exam completion. Be sure to wait outside of my office immediately following the final exam to discuss your final exam grade and your grade in the class.
Keep in mind, each module contains the following:

- Discussion points from iClickers and in class discussion (5 points)
- Assignment or video quiz (10 points)
- Module quiz (20 points)

It is expected that you work on it throughout the week starting with the book reading and contributing to the in class clicker questions and discussion. If you are using Cobra to gather your course information, it is always best to follow the links from top to bottom as you master the material.
